# URT Series Ripper Tooth

## Root and Soil Ripping Tool

## Trenching Tool

### SHP Series Thumb Features:

- Hardened steel cutting edge concentrates the entire digging force of the backhoe on a single point.
- Great for root ripping / cutting.
- Very effective for hard clay or frozen soil cutting applications.
- Doubles as a light trenching tool with MIE's "scoop" located on the rear side of the device.
- Compatible with MIE SHP series backhoe thumbs for added versatility.

### Standard Features:

- ◆ Hardened Steel Cutting Edge
- ◆ Utilizes the Standard Bucket Pivot Pins
- ◆ High Strength Steel Pin Bushings
- ◆ Works with all MIE Backhoe Thumbs
